37 C.F.R. § 1.131 DECLARATION OF PRIOR INVENTION

Sir:

I, Hye-Jeong KIM, hereby declare that:

1. I am the inventor for the above-referenced patent application, which claims priority to application number 1999/26862 that was filed with the Korean Intellectual Property Office on July 5, 1999.
2. This declaration is submitted to establish reduction to practice of the invention of the above-referenced patent application in the Republic of Korea prior to May 25, 1999 which is the effective filing date of U.S. Patent 6,618,352 B1, to Shirakata et al., and which was cited by the Examiner in the above-referenced patent application.
3. Pursuant to MPEP § 715.09, this declaration is timely presented prior to a final rejection for the purpose of overcoming a rejection by the Examiner in the above-referenced patent application.

4. To establish the date of reduction to practice of the invention of the above-referenced patent application, the following documents are attached hereto and are submitted as evidence:
 - a. Exhibit A is an invention disclosure document;
 - b. Exhibit B is a certified translation of Exhibit A; and
 - c. a certified English language translation of priority document KPA 1999/26862.
5. The invention disclosure document provided as Exhibit A hereto was completed at least before May 25, 1999, which is earlier than the effective filing date of Shirakata et al.
6. The invention disclosure document and the translation thereof, provided as Exhibits A and B, respectively, to this Declaration show a reduction to practice of the invention claimed in the above-referenced patent application.
7. We further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code, and that such willful false statement may jeopardize the validity of the application or any patent issuing thereon.
